

HERNANDO COUNTY WINS AT FLORIDA STATE FAIR

Brooksville, Florida – February 8, 2010

The Hernando County Tourist Development Council and Susan Rupe, Director, is pleased to announce that the Hernando County exhibit at the Florida State Fair has won a ribbon.

The Hernando County exhibit placed third in the County Competition, which was judged last Wednesday, just prior to the official opening of the Florida State Fair on February 4th.

Susan Rupe stated, “All the exhibits this year were extremely good. The theme of “Super Fair, Super Fun, Super Value” presented the opportunity for some very creative exhibits. “Super Heros” such as Superman, Spiderman, and others are everywhere. All of the county exhibitors did a great job and we are very happy to be an award winner.”

The exhibit, sponsored by The Hernando County Tourism Bureau, follows the theme with a centerpiece photo of one of the Weeki Wachee Mermaids dressed up as “Wonder Woman”. The interactive exhibit is open for the public to enter and view the wall signs highlighting all that Hernando County has to offer. A coloring table for children and a bean-bag toss game gets everyone involved in some of the “super fun”. It is one of twenty county exhibits on display in the Florida Center Building at the State Fairgrounds.

The display was created by the Tourism Bureau with special thanks to Weeki Wachee Springs and Hernando County Government Broadcasting, The Tourism Bureau also thanks the many volunteers who are staffing the exhibit during the 12-day run of the Florida State Fair, which concludes on February 15th.
